HIGHLIGHTS OF QUALIFICATIONS

- 2+ years of professional experience in content design and software development
- Strong analytical and problem-solving skills, paying close attention to detail
- Possesses cross-functional skills that are paramount to user experience, including information architecture, user research, content design, and prototyping
- Excellent communication, leadership, and interpersonal skills

RELEVANT EXPERIENCE

Focuspace

Sep – Nov 2024

Fundamentals of UX Design – University of Toronto

- Collaborated with **4 other students** to design **Focuspace**, a mobile app to optimize the productivity and work-life balance of remote workers
- Conducted **user research** with **2 working professionals** to gather insights that could guide the design of the app
- Created an affinity map using **FigJam** to cluster patterns from user research into key themes for further ideation
- Designed wireframes and mockups using **Figma** to translate research insights into viable design solutions

EarthBook

Jan – Apr 2024

User Interface Design – University of Toronto

- Leveraged **Figma** to design **EarthBook**, a social network strongly resembling Facebook to allow environmentalists to connect, share resources and events, and motivate one another to help make the world a better place
- Devised a high-contrast version of the app to advocate for accessible design, with each colour combination having an aspect ratio of at least **7:1** to meet **WCAG compliance level AAA**
- Established a **design system** to guide the visual direction of the app

PROFESSIONAL EXPERIENCE

Rogers Communications

May 2023 – Jul 2025

Web Coordinator

Toronto, ON

- Collaborated closely with the marketing team to receive and prioritize requests for website content updates on the Rogers Business site (rogers.com/business)
- Utilized Contentful and web development tools to implement requested changes efficiently and accurately
- Conducted thorough quality assurance checks to ensure proper functionality and consistency of updated content across different browsers and devices
- Led a knowledge transfer session on accessibility audits by doing a presentation and creating a page on Confluence
- Acted as a liaison between the marketing and development teams to gather necessary assets and information for content updates

HypraCycle

Apr – May 2022

User Experience Designer & Software Developer

Toronto, ON

- Designed and developed a website for HypraCycle, a local e-bicycle business, using the InVision Power Services suite for hosting the site and Figma for prototyping
- Implemented a kit configuration wizard on the site to ensure a seamless kit ordering process for customers

Rogers Communications

May 2021 – Dec 2023

Angular Developer

Toronto, ON

- Utilized AngularJS, HTML, and CSS to translate design mockups and wireframes into functional and

- visually appealing user interfaces
- Conducted thorough testing and debugging to identify and resolve issues, ensuring high-quality and bug-free software delivery
- Maintained page content using Contentful to deliver fast and efficient digital experiences
- Worked closely with designers and product specialists to implement new features and enhancements
- Wrote unit tests for Angular components and ran test cases using Jest, achieving at least 70% test coverage

EDUCATION
